The Bixby Center for Population, Health, and Sustainability, a campus-wide research group at UC Berkeley, is dedicated to helping achieve slower population growth within a human right framework by addressing the unmet need for family planning. The Center seeks to improve the health outcomes of world's poorest and most vulnerable women and their families.

Visit us at bixby.berkeley.edu or contact us at bixbycenter@berkeley.edu!

Topical Roundtables @ ICFP

Topical roundtables will expand the coverage of topics during the ICFP conference and serve as opportunities for more intimate conversations about these topics. No sign-ups, seating is first-come first-served. Come join Bixby partners for a roundtable discussion!
